

Introducing the

**OK to
Wake!**TM

Alarm Clock & Nightlight

The clock that teaches kids to sleep in ... so you can too!

OK to Wake! glows green when it's time for young kids to go see mom and dad in the morning!

For parents, every extra minute of sleep is a luxury. OK to Wake! really works - kids are excited to wait for the green light while parents get some extra shut-eye.

I glow green when it's "OK to Wake!"

Parents Praise OK to Wake! Technology

"Love it, love it. If you have issues with toddlers getting up early, this is the clock for you."

"I am happy to report that since the arrival of this amazing innovation we are now 'kid free' until the light turns green in the morning ... an extra hour and fifteen minutes of sleep!"

Alarm Clock & Nightlight
