Neverlate™ 7-day Alarm Clock™
Model No. NL7DAC-PO, Instructions for Use

IMPORTANT SAFEGUARDS, PLEASE READ FIRST!

CAUTION: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT USE THIS PLUG WITH AN EXTENSION CORD, RECEPTACLE OR OTHER OUTLET UNLESS THE BLADES CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION: TO PREVENT ELECTRICAL SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT

ATTENTION: POUR ÉVITER LES CHOCs ÉLECTRIQUES, INTRODUIRE LA LAME LA PLUS LARGE DE LA FICHE DANS LA BORNE CORRESPONDANTE DE LA PRISE ET POUSSER JUSQU’AU FOND

This symbol is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER-SERVICEABLE PARTS INSIDE. PLEASE REFER ANY SERVICING TO QUALIFIED SERVICE PERSONNEL.

AVERTISSEMENT: RISQUE DE CHOC ÉLECTRIQUE – NE PAS OUVRIR

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

SAFETY CERTIFICATIONS

This product, the Neverlate™ 7-day Alarm Clock™ model NL7DAC-PO, is listed by CSA International as certified.
IMPORTANT SAFETY INSTRUCTIONS

For your protection, please read these safety instructions completely before operating this product. All operating and use instructions should be followed. All warnings printed on the device and in the operating instructions should be adhered to. Please keep this manual for future reference.

Water & Moisture
Do not use this device near water. For example, do not use this device near a bathtub, wash bowl, kitchen sink or laundry tub. Do not use this device in a wet basement, near a swimming pool or near any other source of water. Do not place water-filled vessels on this device.

Heat & Open Flame
Do not place this device near any heat sources such as radiators, stoves, amplifiers or other devices that produce heat. Do not place an open flame on or near this device.

Ventilation
The openings in the cabinet of this device are designed to provide necessary ventilation for the product’s internal components. Ensure that these openings remain free of obstructions. Do not situate this device on a bed, sofa, rug, or similar surface that may block ventilation openings.

Power Source
This product should be connected to a power supply only of the type marked on the outside of the unit. Where the main plug is used as the disconnect device, the disconnect device shall remain readily operable.

Grounding or Polarization
Precaution should be taken not to defeat the safety purpose of grounding or polarization. This product is equipped with a polarized AC power cord plug (one blade is wider than the other). This plug is designed to fit into the power outlet in only one way. If you are unable to fully insert the plug into the power outlet, try reversing it. If the plug should still fail to fit, use a different outlet or contact a certified electrician to have a suitable outlet installed.

Overloading
Do not overload wall outlets, extension cords, etc. beyond their rated capacity.

When Not In Use
Unplug the unit from the wall when not using for prolonged periods of time. When removing the power cord from the wall, always grasp the plug; do not pull the cord itself.

Power Cord Protection
Power cords should be routed so that they are not likely to be walked on or pinched by items placed on or against them.
Lightning
If the unit is not plugged into an appropriately rated surge protector, unplug the unit from the wall in the event of a lightening storm in order to protect it from powerline surges.

Object & Liquid Entry
Never insert objects of any kind into this product, through ventilation openings, as these objects may touch dangerous voltage points or create a short circuit that could result in a fire or electric shock. Avoid spilling liquid of any kind on or into the device.

Cleaning
Unplug the unit from the wall before cleaning. Use a soft, damp cloth to wipe down the unit. Do not use liquid or abrasive cleaners.

Servicing & Safety Checks
Do not attempt to service the unit yourself. All servicing should be referred to qualified personnel. Servicing is required when the unit does not operate properly or has been damaged in any way, including but not limited to power supply/cord damage, damage as a result of exposure to moisture, and damage resulting from impact. Upon completion of any service or repairs to this product, ask the service technician to perform routine safety checks.

Damage Requiring Service
This product should be fixed by qualified service personnel under the following conditions:

1. When the power-supply cord or plug has been damaged.
2. If liquid has been spilled, or objects have fallen into the unit.
3. If the unit is exposed to rain or water.
4. If the product does not operate normally when following the operating instructions.
5. If the unit has been dropped or damaged in any way.
6. When the product exhibits a distinct change in performance.

Replacement Parts
In the event that replacement parts are required, ensure that the service technician uses parts specified by the manufacturer or those deemed to be equivalent.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to the equipment that are not expressly approved by the responsible party for compliance could void the user’s authority to operate the equipment.
INSTRUCTIONS FOR USE

Note: Rotating the VALUE collar more quickly changes parameters in units of ten (10) minutes.

Congratulations!

Thank you for your purchase of the Neverlate™ 7-day Alarm Clock™, the first and only alarm clock of its kind. Seven independent daily alarms accommodate your weekly schedule.

Despite its enhanced functionality over and above ordinary clock radio products, the Neverlate™ was designed with ease of use in mind. American Innovative’s™ patent pending nested rotary control makes setting the Neverlate™ quick and easy.

Product Registration (http://www.americaninnovative.com/register/)

Please take a moment to register your product online at the URL above. Product registration is quick and easy and will facilitate future communications with American Innovative™.
Setup

The first time you plug in your Neverlate™ product, you need to run through the setup procedure in order to set the time and other personal preferences.

Press and hold the SETUP key for two (2) seconds to initiate the setup sequence. Press the SETUP key between steps and to complete the procedure. Use the VALUE collar to adjust the various settings (including “Set Day of Week”).

Battery Backup

Your Neverlate™ product takes two AAA batteries used to retain its memory. In the event of a power outage, the Neverlate™ display will not be visible, but the time, alarm and other preferences will be retained until the power is restored. This feature is also convenient should you want to move your Neverlate™ from one place to another.

Setting Alarms

To set the weekly alarms:

1. Position the MODE dial to the day of the week you would like to set. The display indicates the currently set time and whether or not that alarm is set to sound (vertical bars surround day indicator) or not (no vertical bars):

   ![Mo Active Mo Inactive]

2. Use the VALUE control to set the desired wake time. The current alarm is automatically activated if a change is made to the wake time.
3. Use the ON / OFF key to toggle the active state of the alarm.
4. Repeat the procedure for all seven alarms.
5. Return the mode dial to RUN (alarms sound as set) or ALL OFF (no alarms sound). The ALL OFF position is useful in the event that you are leaving for an extended period of time.
Alarm Review

To review the next upcoming alarm, tap the SNOOZE key. The display indicates all alarms that are active. The very next upcoming alarm time is displayed and the icon corresponding to that day flashes.

Snoozing and/or Silencing a Sounding Alarm

To silence a sounding alarm either:

A. Tap the SNOOZE key to snooze. The Neverlate™ goes silent and sounds again after x minutes (where x is the preferred snooze duration that you selected during setup). The number of snooze minutes remaining counts down in the sub-display.

Note: Whenever the Neverlate™ is snoozing, the number of snooze minutes remaining may be incremented in multiples of x by pressing the SNOOZE key again.

B. Tap the ON / OFF key to permanently silence the alarm. The Neverlate™ is now automatically ready to sound on the next active day.

Using the Nap Timer

The nap timer enables you to take a power nap for a preset period of time without having to disrupt your weekly alarm settings. To use the nap timer:

1. Tap the NAP key. If the radio is on, it turns off automatically.
2. The nap icon blinks for five (5) seconds during which time you can use the VALUE collar to change the desired nap duration (1 to 120 minutes).
3. After five seconds (or if you tap the NAP key a second time), the nap timer is set.
4. The nap timer counts down in the sub-display. When it reaches zero (0), the nap timer sounds.

The Neverlate™ remembers the last nap duration you entered for the next time.

Using the Sleep Timer

The sleep timer works exactly the same way as the nap timer except that after the desired duration, the radio turns off automatically. This is useful in the event that you tend to fall asleep at night with the radio on.
Using the Radio

The Neverlate™ contains a high-quality FM/AM analog tuner. Turn the radio on or off using the ON / OFF key. Use the controls on the front of unit to adjust frequency and volume. Note that the radio can not be toggled on or off while the clock is in one of the daily alarm set modes.

Note: The FM antenna for your Neverlate™ product is integrated into the power cord. In the event that you are having trouble receiving FM broadcasts, try reorienting the position of the cord.
ABOUT AMERICAN INNOVATIVE™

American Innovative™ was founded to pursue the development of innovative new products that should exist, but don’t. "Products that make sense™" is our motto and the execution of this philosophy can be seen throughout the company’s product line. Careful attention to the needs of the user and a keen eye for industrial design and user interface engineering are the secrets of American Innovative’s success. American Innovative, LLC * Limited Warranty

Coverage
American Innovative, LLC warrants this product against defects in original material and workmanship for a period of ninety (90) days, under normal use and conditions.

Non-Coverage
This warranty does not cover customer instruction, installation, set up or signal reception problems. This warranty does not cover cosmetic damage or damage resulting from acts of God, accident, misuse, abuse, negligence, commercial application (or rental), or modification (including the antenna). This warranty does not cover damage due to improper operation or maintenance, connection to an improper voltage supply, or attempted repair by anyone other than American Innovative, LLC or American Innovative, LLC authorized service facilities. This warrantee does not cover products sold “as is” or “with all faults”. This warrantee is valid only in the United States and is invalid if the product serial number has been altered or removed.

Making a Warranty Claim
Please check http://www.americaninnovative.com/service/ for the latest information pertaining to warranty claims. To obtain warranty service, contact American Innovative customer service via electronic mail at service@americaninnovative.com, or call 617.395.7831 or 866.663.2393. At the company’s discretion, American Innovative will repair or replace the defective unit. Proof of purchase in the form of a bill of sale or receipted invoice which is evidence that the unit is within the warranty period must be presented to obtain warranty service.

Other Information
REPAIR OR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER. ANY APPLICABLE IMPLIED WARRANTYs, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED IN DURATION TO A PERIOD OF THE EXPRESSED WARRANTY AS PROVIDED ABOVE, BEGINNING WITH THE ORIGINAL DATE OF PURCHASE. NO WARRANTEEs, WHETHER EXPRESSED OR IMPLIED, SHALL APPLY TO THE PRODUCT THEREAFTER. WE MAKE NO WARRANTY AS TO THE FITNESS OF THE PRODUCT FOR ANY PARTICULAR PURPOSE OR USE.

THE EXTENT OF OUR LIABILITY UNDER THIS LIMITED WARRANTY IS THE REPAIR OR REPLACEMENT PROVIDED ABOVE AND IN NO EVENT WILL OUR LIABILITY EXCEED THE PURCHASE PRICE PAID BY THE PURCHASER. UNDER NO CIRCUMSTANCES WILL WE BE LIABLE FOR ANY LOSS, DIRECT, INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGE ARISING OUT OF OR IN CONNECTION WITH THE USE OF THIS PRODUCT.

Applicability of State Law
THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, BUT YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE. SOME STATES DO NOT ALLOW LIMITATIONS ON IMPLIED WARRANTIES OR EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGE, SO THESE RESTRICTIONS MAY NOT APPLY TO YOU.
