**OK to
Wake!**TM

Night Owl Portable Night-Light

The Night Owl teaches kids to sleep in ... so you can too!

The glowing Night Owl comforts kids at night and helps keep them in bed in the morning!

OK to Wake! really works - kids are excited to wait for the green light while parents get some extra shut-eye.

Toddlers can take this whimsical night-light to bed with them or bring it along on trips to the potty.

I glow green when it's "OK to Wake!"

I change **COLORS!**

Kids & Parents get more sleep!
